The New Jersey Roadway & Traffic Permitting Guide

April 25, 2019

By: Joseph Paparo

Authored by Joseph A. Paparo, Esq.

New Jersey is the most densely populated state in the Nation, and as a result, traffic is a primary concern for any development project. The New Jersey Department of Transportation ("NJDOT") has jurisdiction over all projects along state highways.

This guide will help assess site feasibility and what lies ahead on the road to permitting a project from a site access and traffic impact perspective. Click here to read full article.
