Representative Matters

- Successfully represented a multi-national company in insurance coverage litigation valued at more than \$250 million against dozens of insurers involving multiple sites across the United States.
- Obtained an arbitration award in favor of a national airline in defense of a contractual indemnity claim alleging liability for environmental damages estimated at over \$25 million.
- Represented the majority shareholder of a publicly traded company who sold his controlling ownership in the company for \$7.5 million. When the purchaser failed to pay the balance of the sale price due under a promissory note, Charlie obtained a \$5.4 million judgment against the surety company that issued a bond to secure the promissory note. When the judgment proved uncollectable, he successfully settled and obtained a jury verdict against the insurance brokers who negligently placed the promissory note with a surety company that was not authorized or admitted to issue surety bonds in New Jersey.
- Obtained dismissal on motion, without any discovery, in an action alleging that two pipeline companies were responsible for an alleged \$25 million in damages resulting from MTBE contamination of drinking water wells on Long Island.
- Successful at trial in defense of an environmental contamination matter seeking \$7 million alleging that client who operated a vapor degreaser at the site was responsible for costs to investigate and clean up environmental contamination.
- Won a verdict at trial against a former employee who was found liable for stealing the employer's confidential client list and using the list to improperly solicit clients.
