Porzio Joins With Amici in Defense of the Rule of Law

April 14, 2025

As reported in *Law360*, Porzio, Bromberg & Newman joins with amici in legal challenges to recent executive orders impacting Perkins Coie, Jenner & Block, WilmerHale, and other firms—reaffirming our commitment to the independence of the legal profession and the right to representation without government retribution.

We stand alongside law firms nationwide in opposing efforts that threaten attorneys' ability to advocate without fear of retaliation.

A politically independent legal profession is essential to a just society. Porzio remains steadfast in our support for the rule of law, legal ethics, and the core constitutional values that protect all clients and practitioners.
